

Dear Kindergarten Teachers,

Can you believe we are in March-three months to go until summer!!!! The executive board just met to work on details for our September 19th conference in Steven's Point. Donna Whyte is our speaker and she will be speaking on classroom management, phonemic awareness, and math. Spread the word about the conference. We are hoping it will be our best yet!

I just received an e-mail from Sue Smith of Eau Claire. She wanted kindergarten teachers to know that the state assembly will soon be discussing making kindergarten mandatory in the state. Please consider calling your legislators in support of this bill!

Check out spring ideas on our website!!
